<p>It has been a long time since we last posted on the blog so there is a lot to get through so settle in!</p&qt; <p>Today s big news is that we can finally tell you what we are doing to k eep our flash games alive past the end of this year when flash will be removed f rom popular browsers.</p> <p>We have behind the scenes been working with the super talented guys at Poki (https://poki/) to make our games playable in HTML5! This means they will r emain playable in browsers the way they were designed to be played!</p> <p>The first game is Bad Ice Cream which you can play TODAY by navigating to our brand new HTML5 section: nitrome/html5-games. More games will be followin g starting with the Bad Ice Cream sequels over the next two weeks and when we 9;re done, we hope to have the entire flash catalogue of 130+ games playable in HTML5!</p> <p>Time to talk a little more about the HTML5 versions. They are not ports ! The games are running off the exact code of the original games pulled directly from the original flash files. What the wizards making this happen have made is more comparable to an emulator fa Nitrome emulator feek! Being an emulator of sor ts some people may see performance differences to these versions but the code is highly optimised and will improve even further as the team continue to work on it.</p> <p></p><p>the inidea for You when looking Ate an old rewooden dewalking ebridge In 1978 near his</p> <p>omeposso apostar na mega sena da virada pela internetposso apostar na m ega sena da virada pela internet Boulder­ Colorado?
