Snake.io is generally considered safe for kids to use, as it does not have any explicit or inappropriate content. However, it does feature in-app purchases and advertisements, which can be a source of frustration for some players.

It's likely that snake.io is filled with bots, especially if you're playing on a browser. You can tell with browsers because the game pauses when you click out of the window. However, this doesn't work with mobile since it's consistently running. This makes me assume you're more likely to run into players on a phone.
