a building, see Window . For other uses, see Windows (disambiguation)

Microsoft Windows is a group of several proprietary graphical operating

system families developed and marketed by Microsoft. Each family caters to a ce

rtain sector of the computing industry. For instance, Windows NT for consumer an

d corporate desktops, Windows Server for servers, and Windows IoT for embedded s

ystems. Defunct Windows families include Windows 9x, Windows Mobile, Windows Pho

ne, and Windows Embedded Compact.

The first version of Windows was released on November 20, 1985, as a gr

aphical operating system shell for MS-DOS in response to the growing interest in

graphical user interfaces (GUIs).

Windows is the most popular desktop operating system in the world, with

a 70% market share as of March 2024 , according to StatCounter.

However, Windows is not the most used operating system when including both mobile and desk

top OSes, due to Android's massive growth.

As of December 2024 , the most recent version of Windows is Windows 11

for consumer PCs and tablets, Windows 11 Enterprise for corporations, and Window

s Server 2024 for servers.
