<p&gt;Terrible game.&lt;/p&gt;
<p&gt;&lt;/p&gt;
<p&gt;&lt;/p&gt;
<p&gt;&lt;/p&gt;
<p&gt;l just bought this, as
                                I was looking for a game that is exactly this
premise. Alas, when I found this game, I bought it
                                                    and I was extremely disap
pointed. Just loading up the game took forever, and I kept having to close and r
         it. When it finally opened, it took 17 minutes just to do that. Yeah. N
ow it's not like I have
                             a terrible laptop, my laptop is really good and I
' ve never had any issues with such a thing. Then, upon
                                                             opening the game,
I couldn't look around because the default settings were set to ultra. For t
he record, I don't
                         really have an issue with game devs doing this, but it
leaves a bitter taste in your mouth. I had
                                            to set the quality to very low an
d even then it was still so laggy. It was 2 fps at
