It's a common issue for Call of Duty Mobile on consoles and PC. The game requires a stable internet connection and a ping below a certain threshold to connect properly. If your ping is too high, the game will display the error "Unable to connect to game".

Here are some possible solutions: Check server status: Before troubleshooting, it's important to check the server status of Warzone to ensure that the issue is not due to server maintenance or a server outage. Restart your device: Try restarting your computer or gaming console and then launching Warzone again.
