&lt;p&gt;&lt;/p&gt;&lt;p&gt;The TL;DR version of this review is: surprising ligh t, extremely pocketable, does the job, not my dream charger but at &#128516; th e price it s well worth it.&lt;/p&gt;  
&lt;p&gt;We ve covered a product of Lepow s before, the Moonstone. Like the Moon stone, the Poki comes &#128516; with a cloth carrying case that you can stash a USB cable in (it appears to come with a 6 † &#128516; USB-&gt; MicroUSB,) or ch uck your ID and credit card in and use it as a wallet while you re out. It s &#1 28516; actually the first thing that stood out when I was looking at the device . The Moonstone is still going strong &#128516; with a friend of mine a year la ter.&lt;/p&gt;  
&lt;p&gt;The battery delivers a 90% conversion efficiency rating according to sp ecs on the &#128516; manufacturer s website. Most batteries go from the high 70 s to mid 80 s. You want to see a higher number as &#128516; this is how much p ower gets delivered with the rest being lost in conversion.&lt;/p&gt;  
&lt;p&gt;The Poki can charge and recharge at &#128516; 2.1amps. This means you re not stuck for 20+ hours charging a 10,000mAh battery at 500mA. At 2.1 amp you should &#128516; be able to charge this in under five hours and with 90% conve rsion efficiency you should have around 9000mAh of &#128516; actual juice to sp are. That should be enough for at least three complete charges from dead to full for any &#128516; smartphone on the market today.&lt;/p&gt;  
&lt;p&gt;2.1 amp charging also means you re not going to spend ~7 hours charging a 3000mA phone &#128516; from dead, more like an hour and a half if your phone supports it.charging that fast.&lt;/p&gt;  
&lt;p&gt;&lt;/p&gt;&lt;p&gt;least 17 times. Savimbi waS killed on 22 February 20 02, In the battle with Angolan&lt;/p&gt;
