: not&#237;cias&lt;/p>&lt;/p>wiki.&lt;/p>&lt;/p>et&lt;/p>&lt;/p>&lt;/p>To fully exploit the constrained width, avoid loading the neighbouring structures and straddle shared utilities running under the site, the &#128077; house was constructed using a lightweight steel frame on a piled slab. The steelwork was prefabricated as a series of &#128077; portal frames that were craned down the alley and site-welded together. Given that every inch in such a narrow space &#128077; was valuable we chose to fully weld the connections and express the frame internally, even utilising the depth of the &#128077; steels to maximise the space.&lt;/p>&lt;/p>Alongside the painted steel a simple palette of spruce plywood, douglas fir joists, terrazzo and cork &#128077; flooring enriches the interior. Externally the timber framed walls are clad in handmade pewter glazed brick slips with a patina &#128077; that reflects the changing light of the sky. Both the simply landscaped and planted rear courtyard and the garden in &#128077; front of the house enhance the feeling of space in this small dwelling.&lt;/p>&lt;/p>This self-build project had a long gestation, fitted &#128077; in around professional and family life. The design and construction were developed as time and money allowed so whilst planning &#128077; consent was given in January 2014 and the ground works commenced in the spring of 2024, the building was not &#128077; completed until August 2024. We worked closely with friend and joiner Michael Tye to lead a small team of local &#128077; subcontractors and employed specialist fabricators for certain key packages as well as undertaking a fair amount of the work ourselves.&lt;/p>&lt;/p>The &#128077; result is a unique and highly crafted home that is a testament to the commitment, effort and support of many &#128077; people.
