<p></p><p>The TL;DR version of this review is: surprising light, extremely pocketable, does the job, not my dream charger but at 💱 the price it s well worth it.</p>
<p>We ve covered a product of Lepow s before, the Moonstone. Like the Moonstone, the Poki comes 💱 with a cloth carrying case that you can stash a USB cable in (it appears to come with a 6 † 💱 USB-> MicroUSB,) or chuck your ID and credit card in and use it as a wallet while you re out. It s 💱 actually the first thing that stood out when I was looking at the device . The Moonstone is still going strong 💱 with a friend of mine a year later.</p>
<p>The battery delivers a 90% conversion efficiency rating according to specs on the 💱 manufacturer s website. Most batteries go from the high 70 s to mid 80 s. You want to see a higher number as 💱 this is how much power gets delivered with the rest being lost in conversion </p>
