In March 2024, Nitrome mentioned that they were not

working on Flightless due to several things changing since when it was greenlit

, most notably that the game was done in Flash when Nitrome had moved on to Unit

y and that several of the staff members on the project had left the company.

The biggest reason was security. With

th a huge part of the tech world running Flash, it became a massive target for h

ackers, forcing Adobe to release updates often to patch problems. It also offere

d poor performance, causing some users to see full CPU usage when viewing web pa

ges with Flash content.
